

**PRESENT AT THE HANNOVER MESSE FOR THE FIRST TIME,
MOBILITY WORK WILL PRESENT ITS PRODUCTS TO THE
GERMAN MARKET**

Paris, March 20, 2019. Mobility Work, the next-gen maintenance management platform, will participate in the Hannover Messe for the first time this year. The start-up will present its CMMS (Computerized Maintenance Management System) and its targeted marketing platform to the German market.

The Hannover Messe, which gathers 6,500 exhibitors and 220,000 highly qualified international visitors each year, is the world's largest technological event dedicated to the industry. The next edition will take place in Hannover, Germany, from 1 to 5 April 2019. This year, the theme of the exhibition will be "Integrated Industry - Industrial Intelligence", focusing on the digital networking of people and machines in the area of artificial intelligence, a theme in which the start-up Mobility Work fits perfectly.

You can visit Mobility Work on booth D28/1, Hall 5.

During the Hannover Messe, Mobility Work will present its various products:

- Next-Gen CMMS (Computerized Maintenance Management System)

It is a community-based maintenance management platform that allows any company to easily and quickly improve the management of its interventions, maintenance budget, and productivity. Mobility Work the 1st maintenance social network allows users to connect anonymously to other network members sharing the same issues, and to exchange expertise, spare parts.

- Mobility Work's targeted marketing platform

Mobility Work is the first maintenance platform to connect industrial suppliers with various industrial players. Thanks to the targeted marketing tool, suppliers and equipment-makers can promote their products and obtain accurate statistics. The objective is to allow a fair exchange through the platform between actors in the field and suppliers and to fight against product obsolescence and misinformation while allowing everyone to express their opinion.

On 10 and 11 April, Mobility Work will also be stopping by at the Dublin Tech Summit as part of the French Tech Days organized by Business France.

About Mobility Work:

Created in May 2016, Mobility Work is the first maintenance management platform, offering at the same time a CMMS software for field technicians and maintenance managers, a

social network and a targeted promotion and marketing platform for manufacturers, suppliers and service providers. The application allows all actors to create a profile to exchange best practices, expertise, contacts, spare parts or consumables. Suppliers can add their products and services to the official catalog. The objective is to offer a new form of fair collaboration between maintenance professionals. <https://www.mobility-work.com/>
