

Mobility Work

CMMS

**COMMUNITY-BASED
MAINTENANCE MANAGEMENT PLATFORM**

CMMS AND MAINTENANCE SOCIAL NETWORK

www.mobility-work.com

A NEW APPROACH TO MAINTENANCE

OUR GOAL: TO PUT MAINTENANCE AT THE HEART OF YOUR BUSINESS

Simplify the daily life of your maintenance teams thanks to a user-friendly, mobile and community-based CMMS tool.

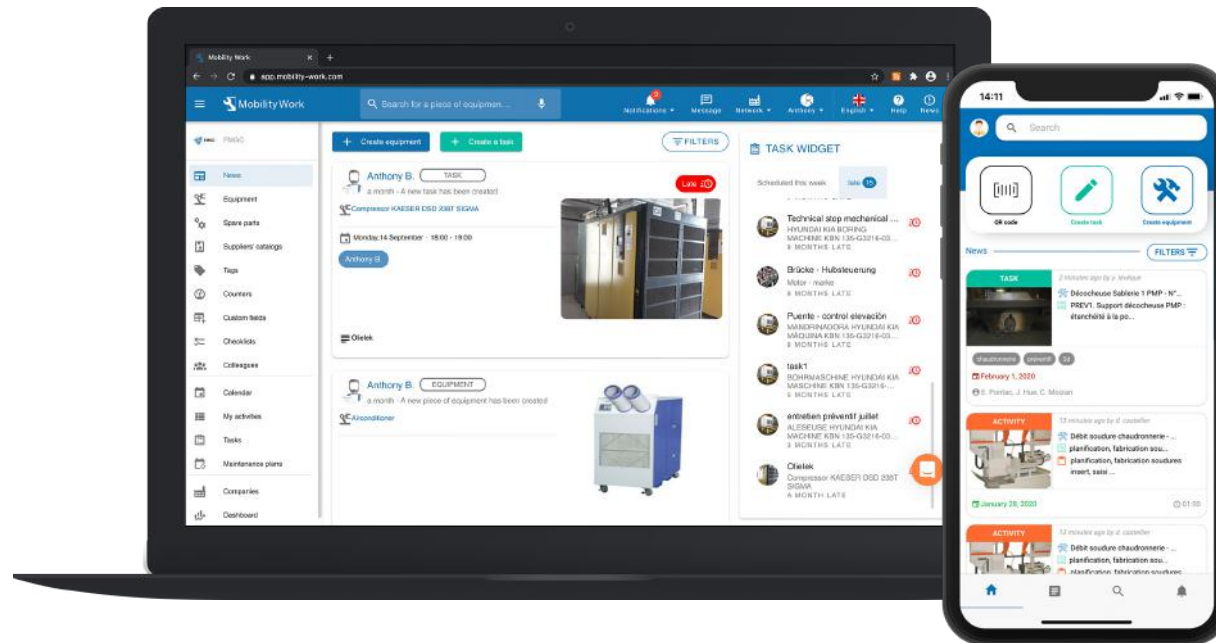

Join the first maintenance social network, alongside other experts in your field, service providers and industrial suppliers.

Collect and analyze your maintenance data, improve your decision making and drive your predictive maintenance.

DIGITIZE YOUR MAINTENANCE

Mobility Work is a web and mobile CMMS solution, designed to facilitate the daily life of your maintenance teams

Import your data or create your equipment in a few minutes.

Access the history of a piece of equipment by entering its part number in the search bar or by scanning the associated QR code.

Monitor in real time the activity of your site through your newsfeed.

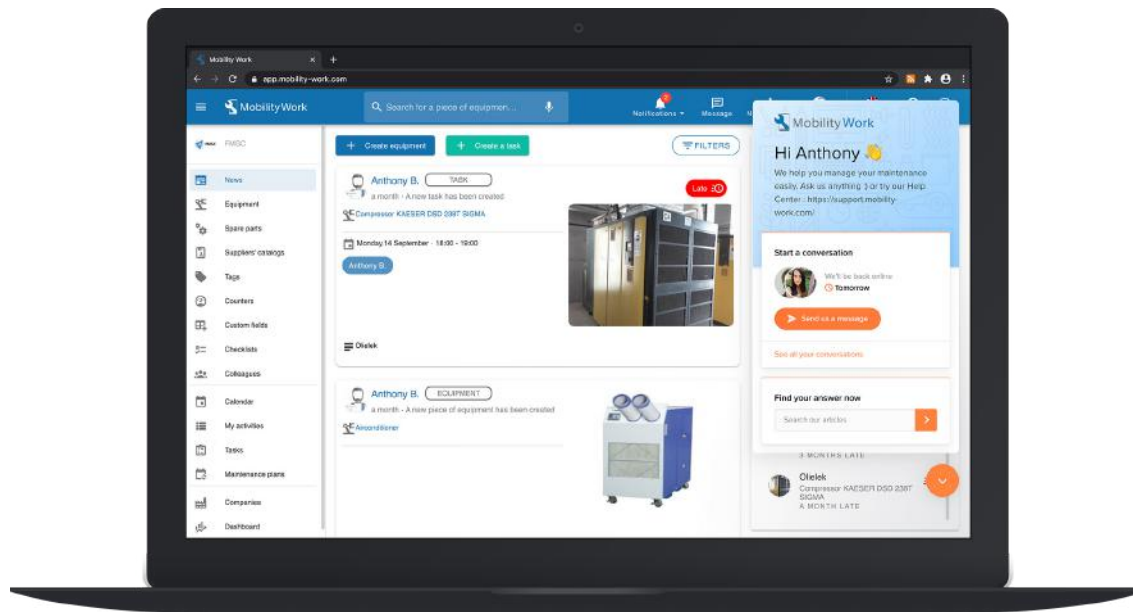

Gather your teams and organize the daily life of your technicians thanks to the integrated planning tool.

A COMMUNITY-BASED PLATFORM

Join the first maintenance social network!

More than a CMMS, Mobility Work is also the **first social network dedicated to maintenance**: join all the players in your industry in a dedicated ecosystem.

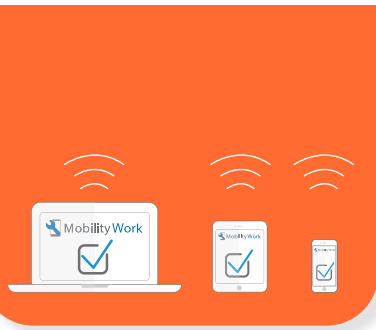

Maintenance professionals, service providers and industrial suppliers have a privileged space to discuss common issues.

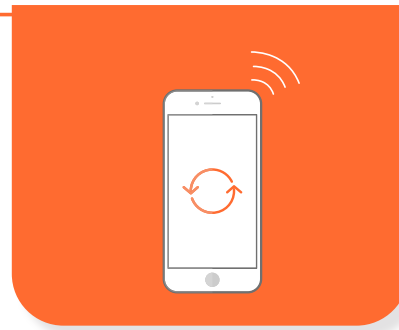

Our ambition is to facilitate the exchange of knowledge and best practices within this ecosystem, and to help you improve the maintenance of your machines.

A COMMUNITY-BASED PLATFORM

Join the first maintenance social network!

Exchange knowledge and best practices with Mobility Work's community of maintenance experts. Discuss in real time with other members via the chat.

Access and compare the products of many manufacturers and service providers, and contact them directly.

Invite your supplier partners to join the platform and share their expertise (technical documentation, support...).

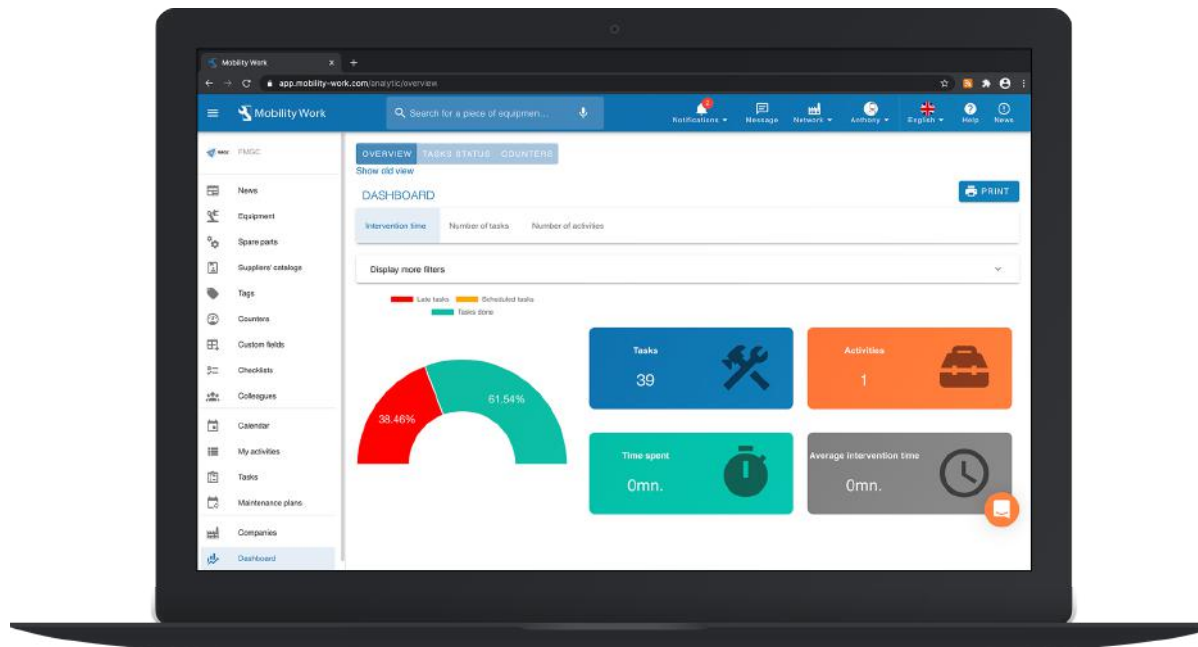

A POWERFUL ANALYTICS TOOL

Collect and analyze your data and optimize your maintenance

Follow the performance of your teams with our turnkey analysis tool and dynamic dashboard.

Move from curative to predictive maintenance: analyze your data, manage your teams and plan your operations.

Thanks to our public API, **cross-reference data from other systems** (ERP, IoT...) to make better decisions and reduce your costs.

WHY MOBILITY WORK?

A MEASURABLE RETURN ON INVESTMENT AFTER 3 MONTHS

10%

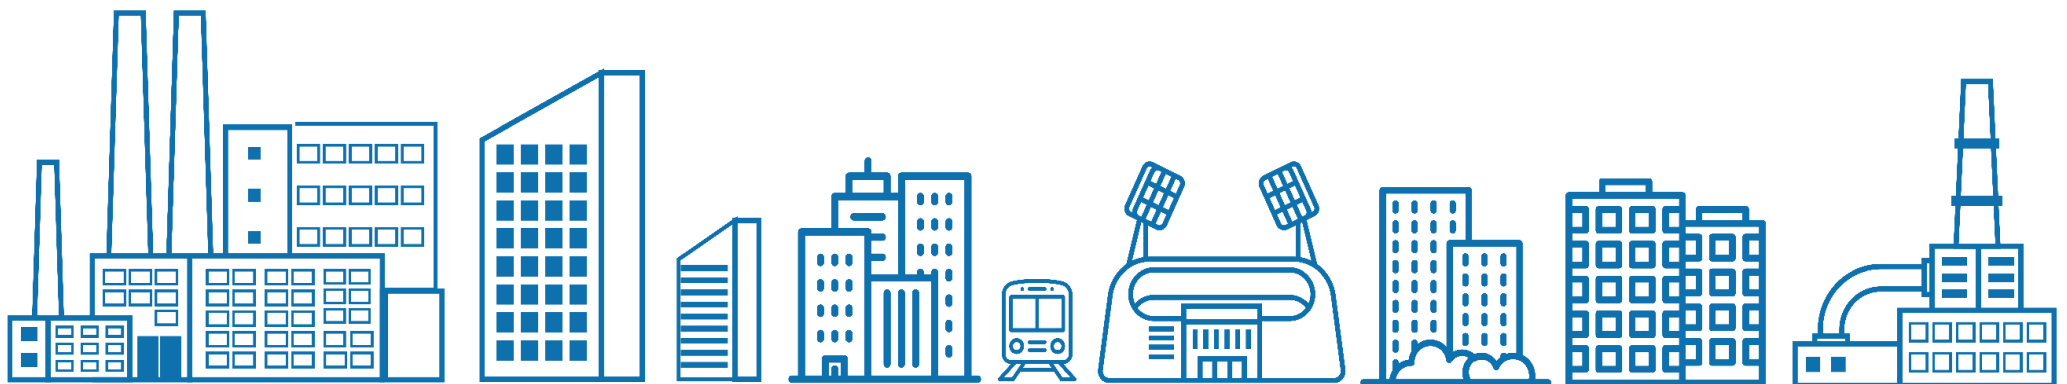

The lifespan of the machines increases by **10%**: reduction of the total cost of ownership, better use and reduction of consumables.

20%

Up to **20% increase in productivity** within maintenance teams leading to better recognition of each individual's work.

1 to 2 days

The cost of calls for external services is reduced: **a gain of 1 to 2 days of service per month** is enough to finance Mobility Work for 50 technician profiles.

MOBILITY WORK IS...
